

Simplify Planning . Simplify Scheduling . Simplify Maximo

The AKWIRE Visual Suite was designed and built to simplify what the Maximo[®] user wants to achieve. We aim to improve on what's available, offer innovative and easy to use functionality that isn't available elsewhere, and simplify the process of working with Maximo[®].

Leading, best-of-breed, comprehensive planning and scheduling solution for Maximo in an easy to use graphical interface.

The vScheduler will not interfere with Maximo's performance regardless of the size of the data sets you're working with.

Excellent Scheduling Tool

"

A couple weeks ago we had an AKWIRE training session. One person told me he was there because he was told to be there. 'But I'm not going to use it,' he said.

Halfway through the second day, that same person gave me his phone number because he didn't want to miss anything.

That is a statement to the tool.
